What makes the world's finest breadsticks?

Imagine really skinny loaves of heavenly artisan bread. Panevino No.6 Grissini are just that. The time and care we take in making one breadstick; kneading, portioning, proofing, applying not one, but two delicate mists of extra virgin olive oil by hand, and sprinkling natural sea salt by hand, is far more effort than artisan bakers expend in the production of a world-class baguette. The result of our fanatical fussing is a line of grissini that defy comparison. We can talk about it until we're blue in the face, but taste them once, and you will understand immediately.

Grissini, which originated in Torino, Italy, are traditionally made with white flour and lard. They satisfy the universal human need for crunchy snacks, but not much else. Panevino began producing grissini in 2007, for catered dinner events we produced for over forty Napa Valley wineries. We simply could not find a brand of grissini that did much more than crunch. The world needed something better. Eight years later, our company is devoted to the singular mission of providing gourmet retailers, restaurants, and wineries with the finest grissini in the world. We produce over 15,000 grissini daily, by hand, in our Napa Valley kitchen. The intricate machines that produce this product have names like Idalia, Claudia, Elena, and Baldo. They are finicky machines, but they take immense pride in every hand-made grissino that goes into every hand-packed hexagonal carton. Because they know the world needs them.

What makes our grissini so dramatically different? Human hands, to be sure, but also our recipes, which rely on Semolina flour, California's finest extra virgin olive oil, and natural sea salt. In 2010, we extended our line with new flavors; One features Fiscalini Farms world award winning Extra Aged Bandage Wrapped Cheddar, and the other gets rich flavor and aroma from French oil-cured olives and Provençal herbs. Our new kid on the block is Calabrian Chili, featuring Tutto Calabria chilies sourced direct from the Producer. We use no preservatives or stabilizers, but thanks to a state-of-the art re-sealable inner bag, all of our packaged products now boast a shelf life of 12 weeks!

Specifications: 16" Sea Salt, bulk only

7.5" Sea Salt, Cheddar, Oil-Cured Olive, & Calabrian Chili 4 oz. retail pack or bulk

Shelf life: Retail package, 12 weeks from date of production

Bulk package, 8 weeks from date of production

Storage: Storage temperature range 50° F to 68° F

Retail case pack: 7.5" all flavors, 12 units per case

Bulk case pack: 250 pieces, all SKUs

In 2008, Panevino introduced No. 6 Grissini.

We developed these handmade semolina breadsticks as an accompaniment to wine, to enhance the tasting experience and refresh the palate.

A longtime favorite of our clients at our winery dinners, food & wine pairing seminars and cooking classes, you'll find Panevino No. 6 Grissini in Napa Valley's most notable tasting rooms, and with gourmet retailers throughout the United States.

In March, 2010 we extended our line with three new grissini products, and a shorter, shippable spec for national distribution; original Sea Salt, Fiscalini Cheddar, and Oil-Cured Olive.

In 2014, our fourth flavor, Calabrian Chili, co-branded with Tutto Calabria, was introduced.

Meet your new addiction

Welcome to The Art of Caramel!

Firm believers in unique and delightful experiences, Alycia and Taylor took on a new endeavor to produce the most indulgent caramel popcorn you could imagine. Conceptualizing flavor is Taylor's specialty; from idea to final production she manages the entire process. With flavors that adventurous palate would appreciate, the thoughtfulness of real ingredients and touches of booze for a truly decadent experience.

This mother daughter team embraces originality and imagination which we hope you enjoy in each crunchy sweet bite!

- We air pop our popcorn and its hand sifted to remove all of the hulls and broken pieces
- Each batch is made 11 pounds at a time in copper kettles and finished in the oven for a crunch that's uniquely ours
- We use butter, brown sugar and tapioca as the base of our caramel
- After baking the caramelized popcorn is hand sifted again, leaving only whole pieces
- Each bag is hand labeled, hand packed and sealed twice
- Our shelf life on all of the bagged items is 6 months and we make all of our orders when they are placed
- Our Shelf life on all Glass items is 90 days
- New flavors are being developed so please check in and see if we have something new or seasonal

Thank you for taking a moment to savor the unique flavors we've sent you and we look forward to hearing from you.

All the best,

Alycia and Taylor

Vanilla Bean and Cocoa Nib: Callebaut cocoa nibs; the sweetest of the bunch! A handful is never enough with this classic flavor. Vanilla has the biggest flavor profile amongst spices; it can have a floral aroma or taste like banana! We work with a single Vanilla Purveyor for fair trade sourced beans that are consistently aromatic,

Fiori & Salt: our take on the classic salted caramel; a special mix of imported Italian dried flower petals that are hand mixed in Puglia, Italy. Aromatic Indian rose petals and flaky Maldon salt from Europe to finish – truly unique. The new “it” flavor profile for 2018 according to Whole Foods hot 10 list

Bananas Foster Dark Rum: savory Korint Ji cinnamon and Bacardi dark rum make a perfect combination with the clean taste of banana. 8 out of 10 men prefer this flavor to all of the others! A great gift idea for the guys anytime of the year!

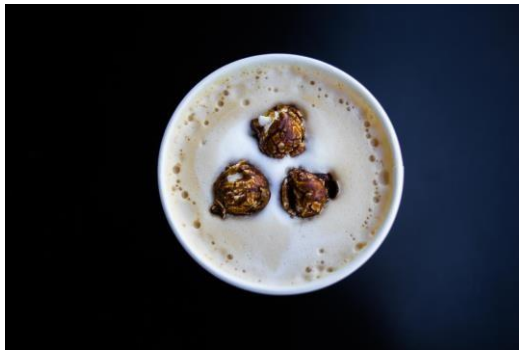

Kentucky bourbon black pepper:

Fresh ground black pepper is spicy and has a fruity aroma which pairs well with the smoky bourbon, a fan favorite. Cheese and wine shops love pairing this with French brie. Top chefs in Los Angeles have finished whole jars by themselves in a single sitting while they contemplate dessert pairings.

Mayan chili chocolate: savory Korint Ji cinnamon, Cocoa Barry extra brute cocoa powder and a touch of spice from ground Cayenne pepper, not too sweet and slightly spicy. A few pieces with your morning coffee are a treat.

Aux Anysetiers du Roy 

Aux Anysetiers Du Roy was first a restaurant located in the old Paris quarters, L'île Saint-Louis (Saint-Louis Island), near Notre-Dame. The building is classified as one of the historic monuments in Paris. It dates from the 17th century.

The special stoneware jar keeps the Chocolate Fondue warm and melted on your table for 45 minutes minimum. May be kept and reheated several times until finished. Remove the lid and put in the microwave-oven on low level for 30 seconds, 3 or 4 times to avoid burning the chocolate. You can also use a 'bain-marie' (hot water) for 15 to 20 minutes. Stir well with a spoon several times to get a smooth texture.

RIÈME

Since 1921

Rieme has been making some of the most delicious sparkling lemonades in France since 1921, when Marcel Rieme founded the company. The lemonade is best served chilled, we love its crisp lemon flavor, and the fact that it is not too sweet, just right. Product of France.
